

STS-C60 Desktop Socket

STS-C60 series table sockets are an excellent solution for desktop power and data access, wherever workspace needs to be flexible without having to crawl on the ground to find an outlet.

Mountable horizontal unit clamps onto the edge of any desk of varying thickness and is easily relocatable for changing or adaptable work environments.

Easy installation & customizable socket configuration makes this unit ideal work surface essential for offices, meeting rooms, home office or multi-personnel environments.
